The information provided in the free-text field will be reflected in the account name.

Usage for assets	For proprietary assets  For third party assets – Segregated 10:  For segregated third party assets, please indicate the details of the underlying client (to be recorded in the CBF business partner register):		
(please select the appropriate category)			
	Country		
	For third party assets – Omnibus <sup>11</sup> :		
	The Omnibus account is used to co-mingle the interests of several underlying clients with no single entity/individual having a predominant and continuing interest in the assets portfolio.		
	Reports setup	CBF reports should show:	
Common Codes (default option)			
Settlement <sup>12</sup> (please tick one box only per option)	The transactions for all accounts are to be settled according to the following criteria:		
	Settlement sequence option		
	Option 1 by transaction reference Option 2 by settlement date number in increasing order (flexible - D) (default option)		
	Option 3 by settlement date  (strict - L)  Option 4 by nominal amount  (flexible - S)		
	Settlement option		
	Option 1 Option 2		
	Include transactions in the mandatory settlement period only.  (default option) Include against payment transactions in both mandatory and optional settlement periods.		
	BICs linked to the account:		
	Main BIC for the account		
	Matching BIC for the account		
	Matching BIC: CBF will include the BIC flagged as "matching BIC" in the settlement party details of external settlement instructions as follows:		
	- Receipt instructions :95P::BUYR//matching BIC		
	- Delivery instructions :95P::SELL//matching BIC		

<sup>10.</sup> Subject to prior approval by CBF.
11. Omnibus accounts for third party assets are intended to facilitate the operations of professional securities intermediaries. CBF may require disclosure of the identities of any underlying clients having a continuing interest of 25% or more in the value of the assets deposited. In cases where there is such a predominant interest, the assets may be deposited on a separate, segregated client account.
12. Please refer to the Settlement Procedures chapter of the CBL Client Handbook available on our website www.clearstream.com under Key Documents / ICSD / Client Handbook.

If the client does not provide a "matching BIC" for the account, CBF will use the main BIC as the default "matching BIC". Clients who either do not wish the main BIC to be defaulted as "matching BIC", or would like to define a different BIC as "matching BIC" at a later stage are requested to send a Swift MT599 or free-format message via Xact Web Portal for the attention of PRGconnect. If the client does not provide a "matching BIC", CBF will not be held responsible for any cross matching of settlement instructions that might occur during the external settlement process.

For TARGET2-Securities (T2S) markets, if the client has populated these fields (BUYR/SELL) in their instruction to CBF, CBF will not overwrite this information with the "matching BIC".

For accounts linked to Vestima activity, that is, the client is a Vestima Order Issuer (OI) placing orders in investment funds that settle in a T2S market through this account, the "matching BIC" is mandatory.

**Note:** Unless otherwise explicitly communicated by the client, for any additional account created, that is not a new "main account" type, CBF will default the same main BIC and "matching BIC" as the ones applied to the main account.

Partial settlement	PART: Instructions eligible for partial settlement  NPAR: Instructions not eligible for partial settlement (default option)	
	<b>Note:</b> Your preference will apply for all internal, Bridge and external settlement instructions.
